Ozarks Chapter of the Academy of  
Hazardous Materials Management  
(GOACHMM)

## COURSE DESCRIPTION

The purpose of this outreach training program is to provide training for companies conducting spray on bedliner operations in support of the OSHA Kansas City Area Office's Local Emphasis Program (LEP). This program is brought to you through an OSHA Alliance.

- Overview of the OSHA Bedliner LEP
- Hazard Recognition and Safety Inspection
- Respiratory Protection Programs
- Fire Safety
- Electrical Safety
- Industrial Hygiene Monitoring
- Engineering and Administrative Controls
- Hazard Communication Programs

## WHO SHOULD ATTEND

Anyone with safety responsibilities for worker safety during spray on bedliner operations should attend this seminar.

## Greater Ozarks Chapter Academy of Certified Hazardous Materials Managers

And

## OSHA

Present

## Spray On Bedliners Safety Workshop

# OSHA REGIONAL NOTICE

U.S. DEPARTMENT OF LABOR Occupational Safety and Health Administration

**DIRECTIVE NUMBER:** CPL 02-07-08

**EFFECTIVE DATE:** December 4, 2006

**SUBJECT:** Isocyanate Local Emphasis Program

---

To institute a Local Emphasis Program for addressing isocyanates in facilities conducting spray-on truck and vehicle bed lining operations. The inspections will begin after 02/12/07 and focus on evaluating inhalation and dermal exposures to isocyanates.

Exposures to isocyanates can have adverse health effects on exposed workers. Isocyanates are a group of compounds known to result in severe respiratory disease among workers. Inspections conducted under this LEP will be programmed health inspections and focus on employee exposure to isocyanate-containing compounds. Document review and/or management interviews will address recordkeeping, air monitoring, dermal exposure surveys, personal protective equipment program, medical monitoring, respirator fit testing and procedures, hazard communication and training. If reasonable grounds exist to believe that isocyanates are present in the facility, processes suspected of creating an isocyanate exposure hazard to employees will be inspected

## About GOACHMM

The Greater Ozarks Chapter of the Academy of Certified Hazardous Materials Management (ACHMM) is a non-profit membership organization dedicated to fostering professional development through continuing education, peer group interaction, the exchange of ideas and information relating to hazardous materials management. ACHMM is comprised of 60 Chapters with over 7,000 members in 37 States, the District of Columbia and Guam.

The ACHMM also is the membership organization for individuals who have successfully completed the education, experience, and testing requirements necessary to become a Certified Hazardous Materials Manager (CHMM). The CHMM program is administered by the Institute of Hazardous Materials Management (IHMM).
